

# Galactic Gel Connection

Connection kit with gel insulation.

Galactic Gel connection is an accessory for straight through 5 core insulated jointing connections with a bicomponent gel sealant suitable for filling any type of enclosure. The kit consists of 5 screw connectors, an innovative wrap around insulator for cable separation and a bicomponent gel compound. The gel compound is non-toxic, inert, has no shelf life and quickly cross links with no exothermic reaction.

Product	Maximum conductor cross section (n° x mm <sup>2</sup> )	Gel colour	Total quantity (ml)
Galactic Gel connection 6	5 x 1 a 6	●	300
Galactic Gel connection 16	5 x 2,5 a 16	●	300

## Installation sequence

### Galactic Gel connection 6

- 1 wrap-around separator (red) for connections up to 5 conductors
- 5 x 6 mm<sup>2</sup> screw connectors
- 2 bottles bicomponent gel

### Galactic Gel connection 16

- 1 wrap-around separator (grey) for connections up to 5 conductors
- 5 x 16 mm<sup>2</sup> screw connectors
- 2 bottles bicomponent gel

 Pour within  
1 minute max
